### 3) Screen-by-screen build order

#### A) Startup & Welcome

##### 1. Splash (2s)

- Center logo (brain/bulb), bg bg/base, small version text.

##### 2. Welcome

- Header/tagline ("Smarter Scheduling Starts Here"), Get Started (Primary). Optional gradient grad/brand background as in doc.
- CAPSTONE\_THESIS\_CHP.1-3\_-\_(Aug....)

Figma: Use Smart Animate between splash → welcome.

#### B) Onboarding (pick one path)

##### Path 1: How-it-works (3 slides)

- Slide 1: Smart scheduling
- Slide 2: Focus timer + plant
- Slide 3: Analytics + tips

Each slide: emoji/illustration + short copy + Next/Skip.

##### Path 2: Quick quiz (recommend study technique)

- Q1: Peak hours? (chip group)
- Q2: Session length comfort?
- Q3: Preference (Pomodoro, Spaced Repetition, or Active Recall, can also be updated in Profile / Settings)
- End: "We'll start you with X." (Save profile prefs)

#### C) Auth (Login / Signup / SSO)

- Log in: Email, password, "Forgot?", buttons: Continue with Google/Facebook, Divider "or" (use federated icons), Link to Sign up.
- Sign up: Name, Email, Password, Confirm, T&C.
- States: error text (Manrope 12, accent/alert), loading spinners, disabled button while invalid.
- BG: bg/base, form panel on surface/high.

#### D) Home (hub with FAB)

##### Modules you can stack vertically:

- Today at a glance (next class/task, "Start focus" CTA)
- Week bar (Mon–Sun, active day chip in accent/primary)
- Upcoming tasks (Task Card list, empty-state copy if none)
- Tips carousel (h-scroll Tip Cards)
- Quick add (mini input opens Bottom Sheet)

FAB (56dp): expands to radial with 5 shortcuts:

1. Schedule/Task
2. Gamification/Rewards
3. Group/Collab
4. Dashboard
5. Settings

(Your doc shows FAB expansion/radial + bottom nav.)

#### E) Tasks & Scheduling

- Daily board (cards by time, subject chips) and Week view.
- Task Input Bottom Sheet (we already defined fields/colors earlier):
  - Title (Text field)
  - Subject (dropdown with colored chips)
  - Date & Time pickers
  - Priority (chip group: success/warn/alert palettes)
  - Notes multiline
  - Save (Primary) / Cancel (ghost)

#### F) Focus Timer + Plant

- Timer screen: big numeric Roboto 48, ring stroke accent/primary, bg ring #333333, play/pause/reset icon buttons (48×48, circular surface/high).
- Session presets: 25/5, custom, auto-start toggle.
- Digital plant card: card bg surface/high, plant asset, "Keep focus..." copy, small progress bar in accent/primary or accent/success.

#### G) Study Techniques (sub-sections)

- Pomodoro: settings + history.
- Spaced repetition: deck list, review queue, "due today" count.
- Active recall: quiz builder / flashcards.

#### H) Dashboard (analytics)

- Bar chart: weekly productivity (fill accent/primary, grid line/subtle).
- Pie chart: task types (use accent/primary, accent/success, accent/alert), legend chips.
- Calendar preview: surface/base with highlights (today badge, active days in accent).
- Dynamic tips card.

#### I) Collaboration / Group

- Kanban: Backlog / In Progress / Done columns (cards reuse Task Card shell), share/invite.

#### J) Profile & Settings

- Avatar, name, email; preferences (theme stays dark), notifications, study preferences (from onboarding quiz), data export.

#### K) Admin (web)

- Overview (totals, weekly growth)
- Task log table (date, type, name, status with colored pills), alt row shading (surface/alt), toolbar filters.  
(Matches your Admin panel section.)

Version 0.0.1

## ● Registration Flow (after Welcome → before Authentication)

### ✓ Purpose

- Collect personal + academic context so the app can recommend study techniques and personalize reminders.
- This data is profile-level (stored in DB + editable later in Profile).
- Acts as a soft onboarding so users feel the app “knows them.”

### △ Step 1: Layout & Structure

- Type: Fullscreen flow (not a bottom sheet, not a modal).
- Navigation: Progress bar or dots at the top (multi-step registration).
- Background: bg/base #121212
- Card / Input Container: surface/high #2C2C2C, radius 16dp, padding 16–24dp.
- Font: Titles → Poppins Bold (18–20sp white), Inputs → DM Sans 16sp, Labels → Manrope 14sp #A1A1A1.

### ● Step 2: Fields to Include

#### 1. Full Name

- Text field (bg #2A2A2A, 12dp radius, caret white).
- Placeholder: “Enter your full name.”

#### 2. Birthdate (or Age)

- Date picker (modal popup).
- Why birthdate > age? → auto-updates user’s age later.

#### 3. Gender (Optional)

- Chips: [ Male ] [ Female ] [ Prefer not to say ]
- Chips: height 32dp, bg #2A2A2A, active state = #7F5AF0.

#### 4. Student Status?

- Optional toggle or radio group: [ Student ] [ Working ] [ Other ]
- (You can keep this for research segmentation, but UX-wise it might be skippable.)

#### 5. Study Preference (Main Feature)

- Title: “Which study technique fits you best?”
- Each technique as a card with short explanation:
  - 🚀 Pomodoro → “Work in short focused bursts with breaks.”
  - 🚀 Spaced Repetition → “Review at intervals to improve memory.”
  - 🚀 Active Recall → “Test yourself to strengthen learning.”
- Layout: 3 vertical cards (full-width), selectable with highlight border #7F5AF0.

#### 6. Optional Extra Fields

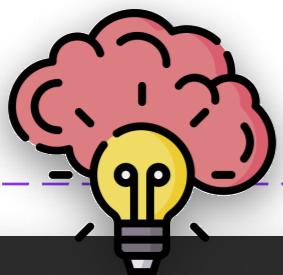

- Preferred study hours (Morning/Afternoon/Night → chips).
- Academic field (dropdown: STEM, Business, Arts, etc.).
- Notes / Motivation (text area).

### ● Step 3: Flow & Navigation

- Screen 1: Name + Birthdate
- Screen 2: Gender + Status
- Screen 3: Study Preferences (Pomodoro, Spaced, Recall)
- Screen 4 (Optional): Preferred Hours / Field of Study
- End: Confirmation → “Great! We’ll tailor IntelliPlan for you 🎉”
  - CTA: Continue → goes to Authentication (Login/Signup).

### 🎨 Colors & States

- Inputs: bg #2A2A2A, text white, hint #A1A1A1, focus border #7F5AF0.
- Cards (Study Technique):
  - bg #2C2C2C default
  - border highlight #7F5AF0 when selected
  - text: white title, #A1A1A1 description.
- Buttons:
  - Primary CTA: #7F5AF0 (hover lighten, pressed darken).
  - Secondary (Skip, Back): text-only white/gray.

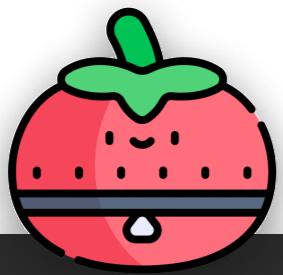

## Active Recall Technique

"Boost learning by testing yourself instead of just rereading notes. Recall practice makes knowledge stick."

### What to expect in the app?

Features like self-quizzes, question prompts, or recall tasks where the student actively engages with the material.

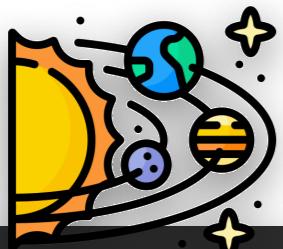

## Pomodoro Technique

"Stay productive by working in 25-minute focus sessions followed by short breaks. Helps build discipline and avoid burnout."

### What to expect in the app?

"A focus timer with session tracking, break reminders, and optional gamified rewards."

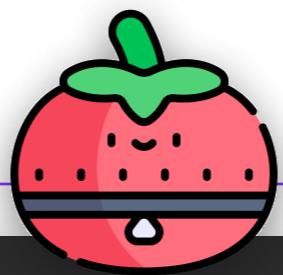

## Spaced Repetition Technique

"Review lessons at increasing intervals to strengthen long-term memory. Ideal for exam prep and gradual mastery."

### What to expect in the app?

"A flashcard or task review system that reminds students when it's the best time to review old material."

## Pomodoro Technique

"Stay productive by working in 25-minute focus sessions followed by short breaks. Helps build discipline and avoid burnout."

### What to expect in the app?

## C Today at a Glance (Card)

- Background: #2C2C2C (surface/high)
- Padding: 16dp
- Corner radius: 16dp
- Shadow: Elevation 1 (subtle)

Content inside:

- Label → “Next Task” (Manrope Medium, 12sp, #A1A1A1)
- Task title → “Finish IT Project Report” (Poppins Bold, 16sp, #FFFFFF)
- Time → “Due today, 4:00 PM” (Manrope Medium, 14sp, #A1A1A1)
- CTA button → “Start Focus”
  - Bg: #7F5AF0 (accent/primary)
  - Font: Inter Medium, 14sp, #FFFFFF
  - Radius: 12dp

## D Week Bar (Mini Calendar Row)

- Container Bg: #1E1E1E (surface/base)
- Height: 64dp
- Divider: 1dp, #2C2C2C
- Items: Mon–Sun stacked vertically
  - Day label (Inter Medium, 12sp, #A1A1A1)
  - Date circle (40×40dp):
    - Selected → Bg: #7F5AF0, Text: #FFFFFF
    - Unselected → Transparent bg, Text: #A1A1A1

## E Upcoming Tasks (List)

- If tasks exist → Task Cards (bg #2C2C2C, padding 16dp, radius 16dp, elevation 1)
  - Title: Poppins Bold, 16sp, #FFFFFF
  - Subject chip: subject color (Math = blue, Eng = green, etc.), Manrope Medium 12sp, white text
  - Time: Manrope Medium 14sp, #A1A1A1
  - Actions (icons → 20dp, tap area 48dp):
    - Edit  → #7F5AF0
    - Delete  → #F25F4C
    - Done  → #2CB67D
- If empty →
  - Illustration (optional)
  - Text: “No tasks scheduled today. Tap the + to get started!”
  - Font: Raleway Regular, 16sp, #A1A1A1

## F Tips Carousel (Horizontal Scroll)

- Container: full width, height 160dp, horizontal scroll group
- Card:
  - Bg: #2C2C2C
  - Size: 280×160dp
  - Corner radius: 16dp
  - Padding: 16dp
  - Shadow: subtle (same as charts)
  - Text: Inter Regular 14sp, #FFFFFF
  - Emoji/icon: 32dp

## G Quick Add (Inline Input / Mini Button)

- Inline row: Text field + add button
  - Text field: Bg #2A2A2A, radius 12dp, height 48dp, hint in #A1A1A1, font DM Sans 16sp white
  - Add icon → Circle bg #7F5AF0, size 48dp, white + icon

## H Floating Action Button (FAB → Radial Expansion)

- FAB default:
  - Bg: #7F5AF0
  - Size: 56dp
  - Icon: + (Lucide/Feather), 24dp, white
  - Shadow: 8dp
- FAB expanded (Radial Menu) → 5 shortcuts:
  - a. Schedule / Add Task → Icon , Bg #7F5AF0
  - b. Gamification / Rewards → Icon , Bg #2CB67D
  - c. Group / Collaboration → Icon , Bg #F25F4C
  - d. Dashboard → Icon , Bg #FF9F43
  - e. Settings → Icon , Bg #A1A1A1

Each mini FAB: 48dp circle, white icon 20dp, shadow 4dp

## Task & Scheduling Section (Kanban + History + Sorting)

### Overall Layout

- Page Background → #121212
- Top App Bar
  - Title: "My Tasks" (or new name suggestion: Planner, Board, or Workboard)
  - Font: Poppins Bold, 20sp, #FFFFFF
  - Right icons: Filter () , Search ()
- Scroll type → Horizontal swipe between columns (Kanban style)
- Columns → 3 main sections (To Do → In Progress → Completed)

### Kanban Columns

Each column is a Vertical Auto Layout Frame (Figma) or a RecyclerView list (Android).

Column NameColor LabelPurposeTo Do#7F5AF0 (primary violet)Tasks not yet startedIn Progress#FF9F43 (warning/orange)Ongoing / pending tasksDone#2CB67D (success/green)Finished tasks

- Column Header:
  - Font: Manrope SemiBold, 14sp
  - Color: matches the column label (violet/orange/green)
  - Spacing: 8dp padding top/bottom
- Cards inside column → Reuse Task Card design (we already set: bg #2C2C2C, radius 16dp, padding 16dp, title Poppins Bold white, subject chip colored, time Manrope Medium 14sp secondary).
- Drag & Drop interaction → Move card between columns.

### Task History Section

Accessible via a toggle/tab at the top → "History".

- Layout → Vertical list grouped by month.
- Group Header → Month/Year (Inter Medium, 14sp, #A1A1A1)
- Task Cards → Same design but smaller (compressed height 64dp).
- Completed tasks → Title strikes through, subject chip faded.
- Optional filter → Show only subject X, Show high-priority only.

### Sorting & Filters

- Sorting Options (Dropdown or modal):
  - By Subject (chips w/ subject colors)
  - By Priority (High = , Medium = , Low = )
  - Alphabetical (A-Z)
  - Deadline (Soonest → Latest)
- UI Elements:
  - Dropdown bg: #2A2A2A, radius 12dp
  - Active item color: #7F5AF0
  - Inactive text: #A1A1A1

### Floating Action Button (FAB)

- Same as home → + (Add Task → Task Input Bottom Sheet).
- Optional radial expansion here too → Quick Add "Subject" or "Reminder."

### Colors & Fonts Recap (Applied Here)

- Background → #121212
- Card Bg → #2C2C2C
- Column Headers → Accent color (violet/orange/green)
- Title → Poppins Bold, 16sp, #FFFFFF
- Subtitle/Labels → Manrope Medium, 14sp, #A1A1A1
- Chips (Subjects) → Unique subject color (Math = blue, Eng = green, etc.)
- Priority Chips → High #F25F4C, Medium #FF9F43, Low #2CB67D

### Suggested Names Instead of "Task / Scheduling Page"

- Planner (straightforward + modern)
- Workboard (visual, Kanban-like)
- Task Board (clear + intuitive)
- Study Board (since it's academic-focused)
- My Plan (personalized, lighter tone)

 Personally, I'd go with Planner or Task Board – short, clean, and fits the Kanban style.
